NO. 9.

## Republican Convention of

### Mora County N. M.

The republican convention of the county of Mora, New Mexico, met at Mora this 16th day of March, 1908, was very largely attended by all the precincts of the county.

Hon. Juan Navarro, was selected as chairman, Hons. Juan Andres de Luna and Ezequiel Vigil, vice presidents, Hons. E. H. Biernbaum and Cosme Garcia, secretaries.

Six all time democrats renounced their affiliations to the democratic party, and extended their right arm to the republicans—more are coming.

Hons. Juan Navarro, John Gandert, Jose Demetrio Medina, Patricio Sanchez, E. H. Biernbaum, Albato Bernal and Antonio Archuleta, were selected as the delegation from Mora county to the territorial republican convention to be held at Silver City N. M., on the 21st inst.

The republican party in this county is making large gains every day.

### Why Not Have One Here?

Las Vegas is going after a sugar beet factory this year. They experimented last season and demonstrated that they could raise the sugar beet and this year they are trying to interest capital in their scheme.

We have just as good soil around here as there is near Las Vegas, so why can't our farmers experiment with beets this season and show what can be done? If we raise the products capital is sure to come to us as it is always looking for some safe investment.

### Take No Chances Fence Your Farms.

The present laws of our statute do not seem to be broad enough for the protection of the farmer against the trespass of cattle upon cultivated fields, they need to be revised, so as to protect the farmer and citizen against any kind of trespass at all times and not at present. The law of today simply protects the farmer during crop season. Cattle are running around town doing damage, upsetting water barrels and getting into feed lots, the owners don't seem to worry, but we wish to inform the public that damages done by a cow can be collected at any time of the year.

### The Time to Advertise.

There is no money in business unless goods are constantly on the move. A store which carries the same stock from one end of the month to the other is not a profitable investment. The only way in which to make money is to keep things moving, and this can only be done by making the public realize that you have something for sale at prices which will draw the money from the hiding places. No man or woman is ready to allow bargains to pass unnoticed; bargains will at all times win the cash, and the only way to accomplish this is to let the public know what you have to offer. The successful business man is he who at all times succeeds in reaching the public. To do that it is necessary to use the mediums which people read and which are ever before their eyes. The Spanish-American is the one means by which advertisers are sure to reach the people of this community.

## Resolutions.

We the republicans of the county of Mora and territory of New Mexico in convention assembled, a new reaffirm our alliance to the republican party as per platform advanced and adopted in the last national convention of the United States.

We recognize in the present Theodore Roosevelt one of the greatest presidents the American people ever had. We approve of his policies and endorse the candidacy of Wm. H. Taft for the office of president of the United States and by these presents we instruct our delegates to the territorial convention which will be held in Silver City, N. M., to use all of their efforts to the national convention who will work and use their legal influence as to the nomination of Wm. H. Taft for president.

We approve the administration of our Governor, Hon. Geo. Curry, and congratulate the people of the territory for the act which we have in the person of Governor Geo. H. Curry. A man who represents his people, a man who knows all the wants, and who untiringly works for the benefit of the entire territory. We are grateful to Governor Curry and our delegates, Hon. W. H. Andrews, Hon. H. O. Bursum, Hon. Solomon Luna and to all of those who have taken part in the fight for statehood, for the territory of New Mexico.

We endorse the good work of our delegate W. H. Andrews, and we note with pride the many benefits received for the territory through his influence, and it is the sentiment of this convention that he receive the republican nomination this fall as delegate to congress, as we believe and are satisfied that he can represent the interests of New Mexico better than any other delegate.

We endorse and approve the administration of Hon. Wm. J. Mills for his able, just and fearless discharge of his duties in the execution of the laws as well as the impartial manner of his just decisions.

We endorse our present county administration and we extend thanks to our officials for the good management in the execution of their official duties.

Be it further Resolved, That it is the sentiment of this convention that the delegates chosen to the territorial convention at Silver City on the 21st day of March, A. D., 1908, are instructed to support the nomination of Hon. Chas. A. Speiss as delegate to the national republican convention.

Respectfully submitted,  
Committee on Resolutions.

### Notice for Publication.

Clayton, N. M., March 18, 1908.

Notice is hereby given that the territory of New Mexico has filed in this office application to select under the provisions of the act of June 21, 1898, for water reservoirs for irrigation purposes, the following described land, to-wit: The E 1-2 of section 25, township 19 north, range 29 east.

Any protest, contest or other objection against the allowance of such selection should be filed with the register and receiver of this office.

EDWARD W. FOX, Register.

Tyler has a car of nice alfalfa.

## The Wind-Up of the Cedar Post.

It will not be very long, that the cedar fence post, which at one time was king of the canyon breaks, will be something of the past and forgotten.

For the last five years the cedar post was cut and shipped out of here by the car loads. This shipping out business should be stopped as the new comers will be the ones who will suffer and who will have to pay for same dearly, when they will want to fence their farms. This thing should be watched a little, very few around here realize the danger ahead in this wholesale shipping out of the cedar post.

## New Mexico.

There has been an almost unprecedented increase in population during the past year. More than 160,000 homestead filings on over two and one-half million acres were made. It is significant that this increase in the agricultural population is not to any great extent in the river valleys, but is along the mesas, which until recently had been given up entirely to grazing. This fact is due to the success of the dry farming method. If this proves an ultimate success, it is estimated that nearly 50,000,000 acres of land in New Mexico will be available for it.

The population of the territory is now estimated at almost 400,000, a gain of nearly 100 per cent since 1907.

## Two New Papers.

A new paper has made its appearance at Solana which is printed at Denver, and edited by Mr. Perry. The first issue of same appeared on Saturday, March 14.

Another new paper appeared at Wagon Mound, under the name of Mora County Sentinel, the management having bought out the "El Combate" which was discontinued some time ago, so as to be able to publish land notices.

## Preparing Map of New Mexico.

Acting upon the request of Chairman Willard S. Hopewell of the board of control of the sixteenth national irrigation congress, a map is being prepared in the office of Territorial Engineer Vernon L. Sullivan, showing the various irrigation enterprises in the territory. When completed the map will be a valuable one. It will not only indicate the irrigation projects now existing together with the amount of land irrigated but it will show the proposed irrigation enterprises as well as contain data concerning the flow of the various streams secured in hydrographic surveys by Mr. Sullivan.

I will be in Roy three days following noon March 23, doing veterinary operations. Examination free. Bring your horses in and have their teeth examined.

C. F. Edwards under grauate,  
Kansas City, Veterinary Collage.

Floersheim Mercantile Co. have received a great line of Ladies Hats. Give them a call.

## The Starting of a Busy Season.

The farmers and soil tillers time is now at hand, you can see them kept busy from sun-rise to sun-set preparing the mother soil for its season's work. We look to a prosperous and bountiful year. The two steam plows will be kept busy turning thousands of acres of sod, the only present object seems to be not enough of wells with water. The drillers seem to be a little scarce and slow in their progress in completing wells and not able to meet the demand at present. Although we can proudly boast of having more wells with water than any other neighborhood.

## Assault and Battery.

Abel Flores pleaded guilty to a charge of assault and battery with words, against the honor and reputation of Miss Limonta Garcia, who is only sixteen years of age, the justice severely reprimanded the defendant and fined him \$10 and costs. The man can consider himself lucky, for if the girls father was alive, he would have met a different fate.

## For Sale!

1,000 acres of alfalfa land, about three miles from Moquero, which can be irrigated from rich wells, at \$12.50 per acre.

488 acres of black rich, bottom land, water very shallow, a good field for an artesian plow, at \$25 per acre, six miles from Roy.
